

Digital transformation

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20507805&lokasi=lokal>

Abstrak

With the exception of written letters and personal conversations, digital technology forms the basis of nearly every means of communication and information that we use today. It is also used to control the essential elements of economic, scientific, and public and private life: security, production, mobility, media, and healthcare. Without exaggerating it is possible to say that digital technology has become one of the foundations of our technologically oriented civilization.
