

The impact of service oriented architecture adoption on organizations

Niknejad, Naghmeh, author

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20509580&lokasi=lokal>

Abstrak

This book describes Service-Oriented Architecture (SOA) and the significant factors which affect its adoption, such as governance, strategy, complexity, Return on Investment (ROI), business and IT alignment, culture and communication, costs, and security. The study on which this book is based, involved a quantitative analysis to investigate the influential factors for adopting SOA, paving the way to further research in the field.

Describes the various factors, such as security, influencing Service-Oriented Architecture (SOA) adoption in many organizations

Investigates the relation between SOA adoption factors and the organizations performance

Developes a new SOA adoption framework to measure the effect on organizational performance
