Abstrak

Selain rumah sakit, fasilitas pelayanan kesehatan yang harus diperhatikan guna meningkatkan kesehatan dan kesejahteraan masyarakat adalah apotek. Praktik kefarmasian yang dilakukan di apotek meliputi pengelolaan sediaan farmasi dan pelayanan farmasi klinis; di mana pengelolaan sediaan farmasi yang dilakukan meliputi perencanaan, pengadaan, penerimaan, penyimpanan, pemusnahan, penarikan, pengendalian, pencatatan, dan pelaporan; sedangkan pelayanan farmasi klinis yang dilakukan meliputi pengkajian resep, dispensing, pelayanan informasi obat, konseling, pelayanan kefarmasian di rumah, pemantauan terapi obat, dan monitoring efek samping obat. Apoteker memiliki peran yang sangat penting dalam pengelolaan sebuah apotek. Praktik Kerja Profesi Apoteker merupakan salah satu bagian dari perkuliahan pada Program Studi Profesi Apoteker di Universitas Indonesia, yang diharapkan dapat memberikan gambaran nyata bagi seorang calon apoteker mengenai peran penting, tugas-tugas dan tanggung jawab seorang apoteker di apotek. Praktik Kerja Profesi Apoteker (PKPA) ini dilakukan di Apotek Safa, Jl. Bukit Duri Tanjakan No.68, RT.1/RW.11, Bukit Duri, Kec. Tebet, Kota Jakarta Selatan, Daerah Khusus Ibukota Jakarta 12840. Praktik kerja ini dilakukan selama 20 hari mulai tanggal 1 Juli 2019 hingga 31 Juli 2019. Berdasarkan kegiatan Praktik Kerja Profesi Apoteker yang dilakukan di Apotek Safa, dapat disimpulkan pelaksanaan PKPA dapat membantu calon apoteker dalam memahami tugas dan tanggung jawab apoteker di apotek, meliputi pengelolaan apotek, pengelolaan sediaan farmasi dan pelayanan farmasi klinik sesuai standar dan etika yang berlaku.

.....Apart from hospitals, health service facilities that must be considered in order to improve public health and welfare are pharmacies. Pharmaceutical practices carried out in pharmacies include the management of pharmaceutical preparations and clinical pharmacy services; where the management of pharmaceutical preparations that is carried out includes planning, procurement, receipt, storage, destruction, withdrawal, control, recording, and reporting; Meanwhile, clinical pharmacy services include prescription assessment, dispensing, drug information services, counseling, home pharmacy services, monitoring drug therapy, and monitoring drug side effects. Pharmacists have a very important role in managing a pharmacy. The Pharmacist Profession Internship is part of the lectures at the Apothecary Study Program at the University of Indonesia, which is expected to provide a real picture for a prospective pharmacist regarding the important role, duties and responsibilities of a pharmacist in a pharmacy. The Pharmacist Profession Internship (PKPA) was conducted at the Safa Pharmacy, Jl. Bukit Duri Tanjakan No.68, RT.1 / RW.11, Bukit Duri, Kec. Tebet, South Jakarta City, Special Capital Region of Jakarta 12840. This internship was carried out for 20 days from 1 July 2019 to 31 July 2019. Based on the Pharmacist Profession Internship activities carried out at Safa Pharmacy, it can be concluded that PKPA implementation can help prospective pharmacists in understand the duties and responsibilities of pharmacists in pharmacies, including managing pharmacies, managing pharmaceutical preparations and clinical pharmacy services according to applicable standards and

ethics.
