

Health promotion for children and adolescents

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20510293&lokasi=lokal>

Abstrak

This book's multilevel lifespan approach reflects concepts of public health as inclusive, empowering, and aimed at long- and short-term well-being. Coverage grounds readers in theoretical and ecological perspectives, while special sections spotlight key issues in social and behavioral wellness, dietary health, and children and teens in the health care system. The book emphasizes collaboration with stakeholders, especially with the young clients themselves
