Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20510596&lokasi=lokal>

Abstrak

Apoteker merupakan profesi yang memegang peran penting di institusi kefarmasian. Demi terwujudnya seorang apoteker yang profesional dalam melakukan pekerjaan kefarmasian, salah satu hal yang penting untuk dilakukan adalah berpartisipasi secara langsung dalam melakukan peran kefarmasian di institusi kefarmasian, seperti apotek dan industri farmasi sehingga calon apoteker dituntut untuk menjalani praktik profesi. Praktik profesi dilakukan sebagai bekal dan pengalaman calon apoteker untuk memahami dan mendapat gambaran mengenai peran apoteker di dunia kerja.. Praktik Kerja Profesi Apoteker dilaksanakan di Apotek Kimia Farma selama periode Februari 2020 dan PT Bayer – Cimanggis Plant selama periode Juli – Agustus 2020. Industri farmasi dan apotek tersebut dapat menjadi wadah bagi seorang calon apoteker untuk mengasah keterampilan kefarmasian. Calon apoteker diharapkan selama menjalani praktik kerja menambah pengetahuan, wawasan, keterampilan, dan pengalaman.

.....Pharmacist is a profession that plays an important role in pharmaceutical institutions. In order to realize a professional pharmacist in doing pharmaceutical work, one of the important things to do is participate directly in carrying out a pharmaceutical role in pharmaceutical institutions, such as pharmacies and the pharmaceutical industry so that prospective pharmacists are required to undergo professional practice. Professional practice is carried out as a provision and experience for prospective pharmacists to understand and get an overview of the role of pharmacists in the world of work. The Professional Practice of Pharmacists is carried out at Apotek Kimia Farma during the period February 2020 and PT Bayer - Cimanggis Plant during the July - August 2020 period. The pharmacy can be a place for a prospective pharmacist to hone pharmaceutical skills. Prospective pharmacists are expected to increase their knowledge, insight, skills and experience during their work practice.</p>
