Abstrak

Apoteker dalam penyelenggaraan pelayanan kefarmasian di apotek wajib mengikuti standar pelayanan kefarmasian yang tertera dalam Peraturan Menteri Kesehatan Nomor 73 Tahun 2016, yaitu salah satunya standar pengelolaan sediaan farmasi, alat kesehatan, dan bahan medis habis pakai (BMHP). Hal tersebut dilakukan agar menjamin ketersediaan sediaan farmasi, alat kesehatan, dan BMHP yang aman, bermutu, bermanfaat, dan terjangkau sehingga masyarakat terlindungi dari bahaya yang disebabkan oleh penggunaan sediaan farmasi, alat kesehatan, dan BMHP yang tidak memenuhi persyaratan mutu, keamanan, dan/atau kemanfaatan. Oleh karena itu, calon Apoteker harus memahami dan memiliki keterampilan pengelolaan perbekalan farmasi di apotek melalui analisis pengelolaan tersebut dalam pelaksanaan Praktik Kerja Profesi Apoteker (PKPA) di Apotek Roxy Galaxy. Pelaksanaan analisis dilakukan dengan metode bimbingan dalam beberapa tahap, yaitu orientasi, observasi, diskusi, simulasi, kerja mandiri, dan hasil pengamatan dibandingkan dengan Peraturan Menteri Kesehatan Nomor 73 Tahun 2016. Hasil yang diperoleh adalah pengelolaan sediaan farmasi, alat kesehatan, dan BMHP di Apotek Roxy Galaxy mencakup perencanaan, pengadaan, penerimaan, penyimpanan, pemusnahan, pengendalian, dan pencatatan dan pelaporan. Kegiatan pengelolaan tersebut menggunakan sistem informasi apotek yang terintegrasi secara terpusat dan telah banyak mengikuti ketentuan dalam peraturan perundang-undangan.

.....Pharmacist in providing pharmaceutical care at pharmacy is required to comply with standard of pharmaceutical care that stated in the Minister of Health Regulation Number 73 year of 2016, one of which is standard of management for pharmaceutical preparations, medical devices, and consumable medical materials. Management activity is done for ensure the pharmaceutical supplies are safe, had a standard, useful, and affordable that leads the public to be protected from the hazard due to the pharmaceutical preparations, medical devices, and consumable medical materials which non compliance of the standard regulation.
