

Fundamentals of protein structure and function

Buxbaum, Engelbert, author

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20528510&lokasi=lokal>

Abstrak

The four parts of this book largely follow the curriculum for biochemistry training of undergraduate medical and science students. The parts on protein structure and enzymology can be covered at the beginning of the course, the special proteins and membrane transport at the end, once molecular biology has been studied.
