Irene Melinia Chrisdy, author

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20528642&lokasi=lokal>

Abstrak

Apoteker memiliki peran penting dalam pekerjaan kefarmasian. Berpartisipasi langsung dalam bidang praktik kefarmasian menjadi salah satu hal penting yang perlu dilakukan untuk menjadi seorang apoteker profesional. Praktik kerja profesi apoteker dilakukan sebagai bekal agar calon apoteker memahami peran apoteker, serta meningkatkan kemampuan pada lapangan yang sebenarnya sebelum memasuki dunia kerja. Praktik Kerja Profesi Apoteker (PKPA) dilaksanakan di PT Hexpharm Jaya Laboratories periode Januari - Februari 2022 dan Apotek Roxy Sawangan periode April 2022. Calon apoteker diharapkan mampu memperoleh pengalaman, pengetahuan, wawasan, dan keterampilan yang sesuai untuk melakukan pekerjaan kefarmasian melalui proses PKPA di industri farmasi dan apotek tersebut.

.....Pharmacists have an important role in pharmaceutical practice. Participating directly in the field of pharmacy practice is one of the important things that need to be done to become a professional pharmacist. The working practice of the pharmacist profession is carried out as a provision so that prospective pharmacists understand the role of pharmacists, as well as improve their abilities in the actual field before entering the world of work. The Professional Practice of Pharmacist (PKPA) is held at PT Hexpharm Jaya Laboratories for the January - February 2022 period and Apotek Roxy Sawangan for the April 2022 period. Prospective pharmacists are expected to be able to gain experience, knowledge, insight, and appropriate skills to carry out pharmaceutical work through the PKPA process in pharmaceutical industry and pharmacy.
