Abstrak

Unsymmetrical decentralization have wearied by many states to finish the problem of separatism. Conflicts which growing on effect of steep difference [among/between] central government and or real other group is manifest's of dissatisfaction will the division of power which do not proportional. Since Indonesia stay in governance system which is centralistic, since then arise dissolution seed because lack of area participation in dtermnining his own chance. Papua and Aceh are regional example of Indonesia which is ebb stay in high political tension because dissatisfaction of central government performance to his area. So that, applying of unsymmetrical decentralization at least replying requirement of real [in] desire area will to develop; build area alone without extension of hand government.
