Abstrak

Tanjung Lesung merupakan Kawasan Ekonomi Khusus (KEK) berdasarkan Peraturan Presiden Nomor 26 Tahun 2012 tentang Kawasan Ekonomi Khusus Tanjung Lesung. Pengamatan yang dilakukan pada area Tanjung Lesung Beach Hotel didapat bahwa telah terjadi abrasi pada garis pantai dengan rata-rata sekitar 40m sejak tahun 1985 sampai dengan 2022. Upaya pengembalian garis pantai di area Tanjung Lesung Beach Hotel dilakukan dengan mendesain bangunan breakwater dan Revetmen. Pembangunan bangunan tersebut diharapkan dapat menambah garis pantai pada area Tanjung Lesung Beach Hotel mengingat daerah tersebut termasuk kedalam Kawasan Ekonomi Khusus (KEK) dimana salah satu tujuan pemerintah yaitu mendukung kemajuan ekonomi kawasan pariwisata dan perikanan.

.....

Tanjung Lesung is a Special Economic Zone (SEZ) based on the Presidential Regulation No. 26 of 2012 on Tanjung Lesung Special Economic Zone. Observations in the Tanjung Lesung Beach Hotel area have shown that the coastline has been eroded by an average of approximately 40 metres from 1985 to 2022. Efforts to restore the coastline in the Tanjung Lesung Beach Hotel area will be carried out through the design of breakwater and Revetmen buildings. The construction of these structures is expected to increase the shoreline in the Tanjung Lesung Beach Hotel area, considering that the area is included in the Special Economic Zone (SEZ), where one of the government's goals is to support the economic progress of tourism and fishing areas.
