Abstrak

Salah satu kegiatan pembelajaran yang dilakukan di Program Studi Profesi Apoteker (PSPA) Fakultas Farmasi Universitas Indonesia adalah Praktik Kerja Profesi Apoteker (PKPA) bagi mahasiswa yang sedang menempuh pendidikan PSPA. Pelaksanaan PKPA ini bertujuan untuk mempersiapkan mahasiswa PSPA menjadi Apoteker yang mampu melakukan praktik kefarmasian secara profesional, legal dan etik di Apotek, Rumah sakit, Industri Farmasi, Puskesmas, maupun Pedagang Besar Farmasi, melalui keterlibatannya dalam praktik kefarmasian pada masing-masing bidang, membekali calon Apoteker agar memiliki wawasan, pengetahuan, keterampilan, dan pengalaman praktis untuk melakukan praktik kefarmasian, memberi gambaran nyata tentang permasalahan praktik kefarmasian dan penyelesaiannya. Praktik kerja profesi apoteker dilakukan di PT Harsen laboratories, Apotek Atrika, Rumah Sakit Universitas Indonesia, PT Medquest Jaya Global, dan Puskesmas Kecamatan Matraman.

.....One of the learning activities carried out at the Pharmacist Professional Study Program (PSPA) at the Faculty of Pharmacy, University of Indonesia is the Pharmacist Professional Work Practice (PKPA) for students who are studying PSPA. The implementation of this PKPA aims to prepare PSPA students to become pharmacists who are able to practice pharmacy professionally, legally and ethically in pharmacies, hospitals, pharmaceutical industries, health centers, and pharmaceutical wholesalers, through their involvement in pharmaceutical practice in each field, equipping candidates Pharmacists should have insight, knowledge, skills and practical experience to practice pharmacy, provide a real picture of problems in pharmaceutical practice and their solutions. Pharmacist professional practice is carried out at PT Harsen Laboratories, Atrika Pharmacy, University of Indonesia Hospital, PT Medquest Jaya Global, and the Matraman District Health Center.
