## Abstrak

Skripsi ini menganalisis sifat hubungan negara dan bisnis yang memfasilitasi berbagai pelanggaran dalam perpanjangan kontrak privatisasi JICT antara Pelindo II dan Hutchison Port Holdings tahun 2014. Analisis tersebut ditujukan untuk memperluas pemahaman mengenai penyebab munculnya permasalahan dalam upaya reformasi tata kelola BUMN secara umum, dan implementasi program privatisasi secara khusus. Penelitian ini menggunakan metode kualitatif dengan mengkombinasikan data primer dan sekunder. Berdasarkan analisis peneliti menggunakan teori patrimonial oligarkis Hutchcroft, penelitian ini menunjukkan bahwa berbagai pelanggaran pada perpanjangan kontrak privatisasi JICT merupakan praktik Booty Capitalism yang difasilitasi oleh hubungan negara dan bisnis yang bersifat patrimonial oligarkis. Kondisi demikian memunculkan konflik politik antar berbagai pemangku kepentingan yang terlibat. Penelitian ini berkesimpulan bahwa sifat hubungan negara dan bisnis yang patrimonial oligarkis merupakan akar permasalahan dari berbagai hambatan yang muncul dalam upaya mereformasi tata kelola BUMN di Indonesia pasca Reformasi, khususnya implementasi program privatisasi.

.....This undergraduate thesis analyzes the nature of state and business relations, which facilitates various law violations in the extension of JICT privatization contract between Pelindo II and Hutchison Port Holdings in 2014. The purpose of this research is to expand the understanding of causes of problems arising in the efforts to reform state-owned enterprise governance in general, and the implementation of privatization program in particular. This research utilized qualitative method through combining primary and secondary data. Based on researcher's analysis using Hutchcroft's patrimonial oligarchic theory, this study demonstrates that various law violations which were perpetrated in the privatization contract extension of JICT is a practice of Booty Capitalism which was facilitated by state and business relation with patrimonial oligarchic nature. Political conflict between stakeholders emerged as the outcome of such condition. This study concludes that patrimonial oligarchic state-business relations is the underlying cause of various obstacles which arise in the effort to reform state-owned enterprise governance in the Post.
