Abstrak

Penelitian ini bertujuan untuk menganalisis pengaruh Foreign Direct Investment (FDI) terhadap peningkatan masuknya tenaga kerja asing di Indonesia periode 2010-2018. Penelitian ini merupakan penelitian kuantitatif dengan penggunaan delapan sektor yaitu pertanian, pertambangan, Industri, utility (listrik, gas, air), bangunan, perdagangan, angkutan, serta jasa lainnya. Analisis empiris dilakukan dengan regresi data panel untuk mengidentifikasi pengaruh Foreign Direct Investment (FDI) terhadap peningkatan tenaga kerja asing. Hasil empiris menemukan bahwa aliran Foreign Direct Investment (FDI) berpengaruh signifikan terhadap peningkatan masuknya tenaga kerja asing di Indonesia.

.....This study analyzes the effect of Foreign Direct Investment (FDI) on the increase in the entry of foreign labour in Indonesia for the period 2010-2018. This research is a quantitative study using eight sectors, namely agriculture, mining, industry, utilities (electricity, gas, water), buildings, trade, transportation, and other services. Empirical analysis was performed with panel data regression to identify the effect of Foreign Direct Investment (FDI) on the increase in foreign workers. Empirical results found that the flow of Foreign Direct Investment (FDI) significantly influenced the increase in the entry of foreign labour in Indonesia.
