

Principles of conflict economics : the political economy of war, terrorism, genocide, and peace

Anderton, Charles H, author

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=9999920539633&lokasi=lokal>

Abstrak

This book provides comprehensive, up-to-date coverage of the key themes and principles of conflict economics, with new scholarship on well-established areas such as war, terrorism and alliances and under-researched areas including genocides, individual and family aspects of war, and conflict prevention.
