Abstrak

Distributor alat kesehatan (DAK) adalah perusahaan berbentuk badan hukum yang memiliki izin untuk pengadaan, penyimpanan, penyaluran alat kesehatan dalam jumlah besar sesuai ketentuan peraturan perundang-undangan. PT MJG merupakan Distributor Alat Kesehatan (DAK) dan Pedagang Besar Farmasi (PBF) yang menyalurkan alat kesehatan dan produk sediaan farmasi, meliputi peralatan di bidang bank darah, in vitro diagnostik, vaksin, kebutuhan untuk penelitian dan industri. PT MJG wajib menerapkan aspek CDAKB dan CDOB dalam menyelenggarakan pengadaan, penerimaan, penyimpanan, dan penyaluran produk farmasetika atau alat kesehatan. Oleh karena itu, perlu dilakukan pengkajian penerapan CDAKB dan CDOB di PT MJG dari aspek operasional yang tercantum pada peraturan perundang-undangan dengan implementasinya di PT MJG. Pengkajian dilakukan berdasarkan pengamatan secara langsung terhadap pelaksanaan kegiatan operasional di PT MJG dan studi literatur. Berdasarkan analisis terhadap implementasi CDAKB dan CDOB dari aspek operasional di PT MJG, dapat disimpulkan bahwa seluruh aspek operasional yang mencakup pengadaan, penerimaan, penyimpanan, serta pengemasan dan pengiriman di PT MJG telah sesuai dengan CDAKB dan CDOB.

..... A medical device distributor (DAK) is a company in the form of a legal entity that has a permit to procure, store and distribute medical devices in large quantities in accordance with statutory provisions. PT MJG is a Medical Equipment Distributor (DAK) and Pharmaceutical Wholesaler (PBF) which distributes medical devices and pharmaceutical preparation products, including equipment in the fields of blood banking, in vitro diagnostics, vaccines, needs for research and industry. PT MJG is obliged to implement CDAKB and CDOB aspects in organizing the procurement, receipt, storage and distribution of pharmaceutical products or medical devices. Therefore, it is necessary to study the implementation of CDAKB and CDOB at PT MJG from the operational aspects listed in the statutory regulations with their implementation at PT MJG. The assessment was carried out based on direct observations of the implementation of operational activities at PT MJG and literature studies. Based on the analysis of the implementation of CDAKB and CDOB from operational aspects at PT MJG, it can be concluded that all operational aspects including procurement, receiving, storage, as well as packaging and delivery at PT MJG are in accordance with CDAKB and CDOB.
