Abstrak

Penelitian ini bertujuan untuk melakukan verifikasi terhadap penerapan Cara Distribusi Obat yang Baik (CDOB) di Kimia Farma Trading & Distribution Jakarta Cabang-2. Metode penelitian meliputi observasi langsung terhadap manajemen mutu, struktur organisasi, prosedur, proses, dan sumber daya, serta alur kegiatan yang diperlukan selama penyimpanan dan transportasi proses distribusi obat, pemeriksaan dokumen terkait, serta melakukan wawancara dengan personel terkait. Hasil verifikasi menunjukkan tingkat kepatuhan yang signifikan terhadap standar CDOB dalam penyimpanan dan proses distribusi obat di Kimia Farma Trading & Distribution Jakarta-2. Penelitian ini memberikan kontribusi penting dalam memastikan bahwa proses distribusi obat berlangsung sesuai dengan standar yang ditetapkan, sehingga dapat meningkatkan keamanan dan kualitas obat yang didistribusikan.

..... This research aims to verify the implementation of Good C Methods (CDOB) at Kimia Farma Trading & Distribution Jakarta Branch-2. Research methods include direct observation of quality management, organizational structure, procedures, processes and resources, as well as the flow of activities required during the storage and transportation of the drug distribution process, examination of related documents, and conducting interviews with relevant personnel. The verification results show a significant level of compliance with CDOB standards in the storage and distribution process of drugs at Kimia Farma Trading & Distribution Jakarta-2. This research makes an important contribution in ensuring that the drug distribution process takes place in accordance with established standards, so as to improve the safety and quality of the drugs distributed.
