Abstrak

Kecurangan akademik adalah suatu fenomena yang sering dilakukan mahasiswa, terutama karena perkembangan internet dan faktor performance goal orientations. Penelitian ini bertujuan untuk melihat hubungan antara performance goal orientations dan kecurangan akademik dengan internet yang dilakukan kepada 155 mahasiswa S1. Penelitian ini dilakukan menggunakan alat ukur Internet-Triggered Academic Dishonesty Scale (ITADS) dan Achievement Goal Questionnaire-Revised (AGQ-R) yang dilakukan secara daring. Hasil penelitian menunjukkan bahwa tidak terdapat hubungan yang signifikan antara performance goal orientations dan kecurangan akademik dengan internet pada mahasiswa ($r = -0,086$, $p < 0.005$). Hasil temuan penelitian diharapkan dapat memberikan informasi mengenai hubungan antara performance goal orientations dan kecurangan akademik dengan menggunakan internet pada mahasiswa S1.

.....Academic dishonesty is a phenomenon that often occurs among undergraduate students, especially with technological developments and performance goal orientation factors. This research aimed to look at the relationship between performance goal orientations and academic dishonesty with internet and was carried out on 155 undergraduate students. This research was conducted using the Internet-Triggered Academic Dishonesty Scale (ITADS) and Achievement Goal Questionnaire-Revised (AGQ-R) measuring instruments, which were conducted online. The research results show that there is no significant relationship between performance goal orientations and academic cheating with technology among Indonesian undergraduate students ($r = -0.086$, $p < 0.005$). The findings of the research are expected to provide information regarding the relationship between performance goal orientations and academic cheating using the internet on undergraduate students.
