Abstrak

Artikel ini membahas tentang peran embedded librarian di Perpustakaan Badan Pengkajian dan Penerapan Teknologi (BPPT). Embedded librarian adalah seseorang yang proaktif dalam memberikan layanan perpustakaan dalam pencarian informasi dan memahami kebutuhan informasi penggunanya. Penelitian ini merupakan penelitian kuantitatif dengan teknik pengumpulan data melalui survei. Survei dilakukan terhadap peneliti yang bekerja di BPPT. Survei dilakukan pada bulan Juni dengan 35 responden. Hasil penelitian menunjukkan bahwa peran embedded librarian di Perpustakaan BPPT sangat penting dalam membantu peneliti mencari informasi saat melakukan penelitian. Sebanyak 49% responden menyatakan bahwa pustakawan Perpustakaan BPPT telah melaksanakan kegiatan pustakawan tertanam dengan baik dengan mengedepankan layanan informasi kepada peneliti. Dalam menjalankan tugasnya sebagai pustakawan tertanam seperti memberikan informasi dengan kualitas informasi yang baik, pustakawan juga telah melaksanakan dengan baik, sebanyak 63% responden setuju dengan hal tersebut. Namun, pustakawan perlu meningkatkan kemampuannya untuk memahami topik terkini terkait penelitian yang sedang dilakukan oleh peneliti, hal ini dapat dilakukan dengan mengikuti pelatihan terkait topik terkait, atau pustakawan dapat menjadi spesialis mata pelajaran dengan melanjutkan studinya dengan mengambil bidang yang menjadi fokus BPPT.

.....This article discusses the role of embedded librarians in the Library of the Agency for the Assessment and Application of Technology (BPPT). An embedded librarian is someone who is proactive in providing library services in information retrieval and understanding the information needs of their users. This research is a quantitative research with data collection techniques through surveys. The survey was conducted on researchers working at BPPT. The survey was conducted in June with 35 respondents. The results show that the role of embedded libraries in the BPPT Library is very important in helping researchers find information when conducting research. As many as 49% of respondents stated that the librarians of the BPPT Library have carried out embedded librarian activities well by promoting information services to researchers. In carrying out their duties as embedded librarians such as providing information with good quality information, librarians have also carried out well, as many as 63% of respondents agree with this. However, librarians need to improve their ability to understand current topics related to the research being carried out by researchers, this can be done by participating in training related to related topics, or librarians can become subject specialists by continuing their studies by taking the field that is the focus of BPPT.
