

World Scientific Handbook Of Global Health Economics And Public Policy (Volume 2)

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=9999920569435&lokasi=lokal>

Abstrak

Understanding global health economics and policy has never been so important. This remarkable three-volume collection of chapters is sure to become the standard on health economics and health policy around the world.'

David Cutler Otto Eckstein Professor of Applied Economics Harvard University This Handbook covers major topics in global health economics and public policy and provides a timely, systematic review of the field.

Edited by Richard M Scheffler, Distinguished Professor of Health Economics and Public Policy and Director of the Global Center for Health Economics and Policy Research at the University of California, Berkeley, the Handbook features academics and practitioners from more than a dozen countries.

Contributors are from the London School of Economics and Political Science, Pompeu Fabra University in Barcelona, University of York, University of Oslo, London School of Hygiene and Tropical Medicine, University of California - Berkeley, Stanford University, Johns Hopkins University, University of Toronto, University of Oxford, Harvard Medical School, OECD, the World Health Organization and the World Bank, many of whom have also acted as economic and policy advisors to government and non-governmental organizations across the world. Experts in these areas who provide critical analyses and relevant data for further exploration and research include: Thomas E Getzen, Executive Director of the International Health Economics Association (iHEA); Douglas E Hough, Associate Scientist and Associate Director of the Master in Healthcare Management programme at the Bloomberg School of Public Health of John Hopkins University; Guillem López-Casasnovas, former President of iHEA and member of the Advisory Council of the Spanish Health and Social Welfare Ministry and of the Advisory Council of the Catalan Health Ministry since 1984; Alistair McGuire, Professor of Health Economics at the London School of Economics and Political and advisor to a number of governments and governmental bodies across Europe; Tor Iversen, Research Director at the Health Economics Research Programme at the University of Oslo and former member of the iHEA Arrow Award Committee 2007-2011; William H Dow, Professor and Associate Dean for Research at University of California ,Berkeley and former Senior Economist for the Council of Economic Advisors (White House); Audrey Laporte, the Director of the Canadian Centre for Health Economics; Alexander S Preker, President and CEO of Health Investment & Financing Corporation; Ayda Yurekli, who initiated and developed the World Health Organization TaXSiM simulation model that has been used by many Ministries of Finance around the world for the development of tax policies; Marko Vujcic, Managing Vice President of the Health Policy Resources Center at the American Dental Association; Mark Sculpher, Director of the Programme on Economic Evaluation and Health Technology Assessment at the University of York and former President of the International Society of Pharmacoeconomics and Outcomes Research (ISPOR) (2011-2012); and Peter Berman, who has had almost 40 years of experience in global health and was formerly a Lead Health Economist at the World Bank. The Handbook spans across three volumes. The chapters deal with key global issues in health economics, are

evidence-based, and offer innovative policy alternatives and solutions. The Handbook's approach toward global health economics and public policy will make it a useful resource for health economists, policymakers, private sector companies, NGOs, government decision-makers and those who manage healthcare systems.
