.....Hoogere Burger School Surabaya is a school that was built in the early 20th century. The Hoogere Burger School Surabaya building is in Ketabang, which was an elite residential area at that time, making Hoogere Burger School Surabaya one of the elite schools built by the Dutch colonialists. The Hoogere Burger School Surabaya building was built when architecture began to develop in Indonesia, one of which was in the city of Surabaya. Architectural developments in Indonesia occur in many aspects of buildings such as places of worship, offices, public buildings and also schools. Therefore, this research aims to determine the influence of what building styles are found in the Hoogere Burger School Surabaya building. In this research, four stages of research methods were used, namely the data collection stage in the form of primary and secondary data, the data processing stage in the form of descriptions of each building element, the data analysis stage, and the final stage was the data interpretation stage. In the process of interpreting the data, comparisons were made with similar and contemporary buildings. From the research, it was found that the Hoogere Burger School Surabaya building had a lot of influence from Indic building styles.
