### Abstrak

[<b>ABSTRAK</b><br>

Autis adalah gangguan perkembangan pervasif pada anak. Ibu yang merawat anak autis mengalami suka duka tersendiri. Penelitian fenomenologi deskriptif ini bertujuan mengetahui makna pengalaman ibu merawat anak autis. Partisipan diambil dengan teknik purposive sampling adalah ibu yang mempunyai anak autis. Data dianalisis dengan menerapkan teknik Collaizi. Penelitian mengidentifikasi 8 tema yaitu 1)membutuhkan perawatan khusus, 2)membutuhkan konsistensi dan ketegasan, 3)merasa berbeda dengan orangtua lainnya, 4)mencari usaha pengobatan, 5)keinginan berlaku adil terhadap sibling, 6)menyikapi reaksi lingkungan, 7)membutuhkan dukungan dari lingkungan, dan 8)kebutuhan dan harapan ibu. Penelitian ini diharapkan dapat memberikan pengetahuan dan masukan kepada praktisi keperawatan anak, pendidikan dan penelitian keperawatan.
