Abstrak

[ABSTRAK

Tujuan yang ingin dicapai dari penelitian ini adalah menggambarkan pemanfaatan OPAC dan mengidentifikasi kendala yang dihadapi dalam pemanfaatannya.

Penelitian ini menggunakan pendekatan kualitatif dengan cara mengumpulkan data melalui metode wawancara, observasi dan dokumentasi. Hasil penelitian ini menyimpulkan bahwa pemanfaatan di perpustakaan Universitas Swadaya Gunung Jati Cirebon oleh pengguna masih belum optimal. Kendala dalam penggunaan OPAC terdiri dari dua, yaitu kendala internal dan kendala eksternal. Diantara kendala internal yang ditemukan diantaranya 1) tidak mempunyai banyak waktu untuk melakukan penelusuran dengan OPAC, 2) terlalu banyak temuan (list) dan 3) harus tahu dengan kata kunci yang tepat. Kendala eksternal yang dihadapi pengguna dalam menggunakan fasilitas OPAC diantaranya, 1) sering mati lampu, 2) akses OPAC yang lambat, 3) keterbatasan jumlah komputer, 4) komputer banyak yang rusak dan 5) perbedaan antara informasi di OPAC dan di rak.

ABSTRACT

The objectives of this study is to describe the utilization of OPAC and identify the obstacles encountered in its utilization. This study used a qualitative approach by collecting data through interviews, observation and documentation. The results of this study concluded that the utilization of the library of the Universitas Swadaya Gunung Jati Cirebon by the user is still not optimal. Constraints in the use of OPAC consists of two, namely the internal constraints and external constraints. Among the internal constraints that are found include 1) do not have much time to do a search with OPAC, 2) too many findings (list), and 3) must know the appropriate keywords. External constraints faced by users in using the OPAC facilities including, 1) often there is electricity, 2) a slow OPAC access, 3) limited number of computers, 4) there are many damaged computers 5) there are different information between OPAC and on the shelves., The objectives of this study is to describe the utilization of OPAC and identify the obstacles encountered in its utilization. This study used a qualitative approach by collecting data through interviews, observation and documentation. The results of this study concluded that the utilization of the library of the Universitas Swadaya Gunung Jati Cirebon by the user is still not optimal. Constraints in the use of OPAC consists of two, namely the internal constraints and external constraints. Among the internal constraints that are found include 1) do not have much time to do a search with

OPAC, 2) too many findings (list), and 3) must know the appropriate keywords.

External constraints faced by users in using the OPAC facilities including, 1) often there is electricity, 2) a slow OPAC access, 3) limited number of computers, 4) there are many damaged computers 5) there are different information between OPAC and on the shelves.]
