[<b>ABSTRAK</b><br>

Skripsi ini membahas tentang Pabrik Gula Pangka pada abad ke-19. Berdasarkan pola tata letak bangunan dalam emplasemen pabrik maka dilakukan rekonstruksi sistem produksi gula di Pabrik Gula Pangka pada abad tersebut. Pola tata letak bangunan di atas memperlihatkan sistem pembagian kerja yang terjadi di dalam pabrik. Hal tersebut memiliki keterkaitan pula dengan kelompok-kelompok sosial yang terbentuk dari adanya pembagian kerja.

<b>ABSTRACT</b><br>

The focus of this thesis is about Pangka Sugar Factory on 19th Century. Based on the structures disposition pattern at Pangka emplacement then it was a reconstruction of sugar production system in sugar factory on that century. That disposition pattern showed the working distribution system in the factory. It also has relation with social clusters that caused by working distribution system., The focus of this thesis is about Pangka Sugar Factory on 19th Century.
