Abstrak

[ABSTRAK

Penelitian ini ingin melihat bagaimana pengaruh dana zakat, infak, & sedekah, tingkat pendidikan, dan lama usaha terhadap peningkatan usaha mustahiq.

Responden penelitian ini adalah para peserta program ikhtiar yang digagas oleh yayasan peramu. Para peserta program terletak di Desa Sukaluyu Kabupaten Bogor Jawa Barat. Sampel yang digunakan adalah 50 responden peserta program ikhtiar peramu.

Metode analisa dilakukan dengan regresi linier berganda dimana regressornya terdiri dari variabel kuantitatif dan kualitatif.

Dari hasil penelitian didapatkan bahwa variabel ZIS dan tingkat pendidikan berpengaruh secara signifikan terhadap peningkatan pendapatan usaha. Sedangkan variabel lama usaha tidak berpengaruh secara signifikan terhadap peningkatan pendapatan usaha. ;This research intends to evaluate the effects of zakat, shadaqah, funds to the increase mustahiq omzet.

<hr> ABSTRACT

The respondents of this research are participants of ikhtiar programme that held by peramu. Method of analysis used is multiple linear regression in which the regressors are quantitative and qualitative variables. The result of this research was that ZIS and education variabel significantly influenced the increase of omzet.

Meanwhile the experience of business does not significantly influence the increase of omzet
