### Abstrak

[<b>ABSTRAK</b><br>

Penelitian ini berupaya menganalisis mengenai kebijakan energi China terhadap Angola dalam upaya mengamankan pasokan energi minyaknya. Upaya China dilakukan melalui diplomasi energi dengan menggunakan instrumen positive economic statecraft. Untuk, tulisan ini menganalisa mengenai sejumlah aktivitas diplomasi China untuk Angola seperti kunjungan diplomatik, bantuan luar negeri, investasi, perdagangan dan kerjasama ekonomi. Selain itu, penulis juga menganalisa indikator keberhasilan energi China di Angola dan faktor-faktor yang mendorong keberhasilan diplomasi tersebut. Penulis menggunakan metode kualitatif dengan mengambil data melalui studi kepustakaan. Pada akhirnya penelitian ini menemukan bahwa sejumlah faktor yang mendukung keberhasilan ekonomi di China antara lain; pergeseran kebijakan China dari ideologi China ke ekonomi pragmatis, penggunaan charm foreign policy, isu HAM di Angola, kurangnya kontrol kebijakan energi di Angola dan terakhir berhasilnya diplomasi di Angola juga dipengaruhi oleh gagalnya diplomasi Amerika di Afrika sehingga tidak ada power yang lebih besar di Afrika yang memudahkan China melakukan ekspansi minyak dan mendapatkan pasar di Angola.
