[<b>ABSTRAK</b><br>

Penelitian ini terfokus pada Kepemimpinan Nasional dan Pembangunan Nasional: ?Bagaimana pemimpin nasional mengawal semua program pembangunan agar tujuan nasional masyarakat adil dan makmur tercapai.? Hingga sekarang tujuan nasional itu belum juga tercapai. Mengapa? Karena faktor kepemimpinan nasional. Maka sangat dibutuhkan suatu model kepemimpinan nasional yang mampu menghantar Indonesia kepada tujuannya. Dan model itu adalah Kepemimpinan-Pelayan. Penelitian ini adalah sebuah penelitian kualitatif yang disajikan secara deskriptif dengan fokus kajian (Rencana) Pembangunan Jangka Menengah Nasional Tahap II Tahun 2010-2014. Hasilnya ialah bahwa kepemimpinan-pelayan (servant-leadership) dapat menjadi model ideal kepemimpinan nasional yang dapat menghantar bangsa Indonesia kepada tujuan nasionalnya.

<b>ABSTRACT</b><br>

This study focused on the National Leadership and Indonesia Development: "How can national leaders oversee all development programs, so that the just and prosperous society as national goal can be achieved." Until now the national goal has not been reached. Why? Because of the national leadership. Then urgently needed a national model of leadership that is able to deliver this nation to its destination. And the ideal model is Servant-Leadership. This study is a qualitative research presented descriptively by focus of study of Medium Term Development Phase II from 2010 to 2014, particularly the Year 2010/2011. The result is that the servant-leadership may be an ideal model of national leadership that can deliver the Indonesian nation to its national goals, This study focused on the National Leadership and Indonesia Development: "How can national leaders oversee all development programs, so that the just and prosperous society as national goal can be achieved."
