

Cooler smarter : practical steps for low-carbon living

Shulman, Seth, author

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20401967&lokasi=lokal>

Abstrak

Cooler smarter shows you how to cut your own global warming emissions by twenty percent or more. It offers science-based strategies to cut carbon, including chapters on transportation, home energy use, diet, personal consumption, as well as how best to influence your workplace, your community, and elected officials.
