

Etika, Bisnis, dan Pemanfaatan Teknologi

Mikhael Dua, author

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20425336&lokasi=lokal>

Abstrak

In the world of technology, business has played an important role. It gives a new orientation about many things, such as policies, production, relation, communication and the implementation of technology. Primarily, technology has changed the concept of space and time drastically. Secondly, in a bonded orientation like today, business ethics has played a significant role in balancing egocentrism for applying global technology, business and market solely for the general welfare.
