

Leaving addie for SAM: an agile model for developing the best learning experiences

Allen, Michael, author

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20440923&lokasi=lokal>

Abstrak

Contents :

- Preface
- For Nancy Olson
- Acknowledgments
- Part I: A new model for instructional product design and development
 - Chapter 1: Traditional design models disappoint
 - Chapter 2: Instructional systems design
 - Chapter 3: Anatomy of effective learning events
 - Chapter 4: Successive approximation model 1
 - Chapter 5: Successive approximation model 2
 - Chapter 6: Are you the one?
- Part II: Using the successive approximation model
 - Chapter 7: Preparation phase
 - Chapter 8: Prototyping
 - Chapter 9: Constructing the prototype
 - Chapter 10: Setting the target
 - Chapter 11: Designing for success
 - Chapter 12: Project planning
 - Chapter 13: Additional design
- Part III: Iterative development phase
 - Chapter 14: Creating the design proof
 - Chapter 15: Iterative evaluation
 - Chapter 16: Getting to gold
