

Proceedings of the sixteenth Annual ACM-SIAM Symposium on Discrete Algorithms

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20449176&lokasi=lokal>

Abstrak

The Symposium was jointly sponsored by the SIAM Activity Group on Discrete Mathematics and by SIGACT, the ACM Special Interest Group on Algorithms and Computation Theory.

This volume contains 136 papers that were selected from a field of 491 submissions based on their originality, technical contribution, and relevance. The symposium and the papers focus on research topics related to efficient algorithms and data structures for discrete problems. In addition to the design of such methods and structures, the scope also includes their use, performance analysis, and the mathematical problems related to their development or limitations.
