Abstrak

ABSTRAK

Kegiatan praktek kerja profesi di apotek dilakukan agar calon apoteker dapat mampu memahami peran, tugas, dan tanggung jawab apoteker di apotek sesuai dengan standar pelayanan kefarmasian di apotek. Calon apoteker dapat belajar secara langsung mengenai pengelolaan sediaan farmasi maupun pelayanan farmasi klinis yang berlangsung di apotek. Analisa resep dilakukan sebagai tugas khusus untuk dapat mempelajari cara pengkajian resep untuk resep demam tifoid.

ABSTRACT

Professional work practice in pharmacy is done so that the apothecary candidate can be able to understand the role, the duty, and the responsibility of the pharmacist in the pharmacy, accordance with the standard of pharmacy service in the pharmacy. The candidate of apothecary can learn directly about the management of pharmaceutical preparations and the clinical pharmacy services that take place in there. Prescription analysis is performed as a special task to be able to learn how to analyze for typhoid fever prescriptions.
